9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Nominal Amount per Certificate is SEK 10,000, the Aggregate Nominal Amount is up to SEK 100,000,000 and the Issue Price is 100 per cent. of the Aggregate Nominal Amount; and
- (ii) in respect of each Asset, the Autocall Level is 90 per cent. of the Asset Initial Price of such Asset, the Coupon Barrier Level 2 is 60 per cent. of the Asset Initial Price of such Asset, the Coupon Barrier Level 1 is 90 per cent. of the Asset Initial Price of such Asset, the Trigger Level is 90 per cent. of the Asset Initial Price of such Asset, and the Barrier Level is 60 per cent. of the Asset Initial Price of such Asset.

For the purposes of these Examples only, (i) the Autocall Event Amount for the first Autocall Observation Date (being the Valuation Date scheduled to fall on September 17, 2018) is deemed to be SEK 11,200, (ii) the Coupon Value is deemed to be 0.05 and (iii) the Trigger Percentage is deemed to be 160 per cent. The actual Autocall Event Amount for the first Autocall Observation Date and the Trigger Percentage will each be determined by the Calculation Agent on or around September 15, 2017 and, in respect of (i) the Autocall Event Amount for the first Autocall Observation Date may be a lesser or greater amount than SEK 11,200 (but shall not be less than SEK 10,900), (ii) the Coupon Value may be a lesser or greater value than 0.05 (but shall not be less than 0.035) and (iii) the Trigger Percentage may be a lesser or greater percentage than 160 per cent. (but shall not be less than 145 per cent.). Therefore, as the actual Autocall Event Amount for the first Autocall Observation Date, the Coupon Value and the Trigger Percentage may each be lower than the deemed values used for the purposes of these Examples, the actual amounts received by investors may be less than the amounts stated in the Examples below.

AUTOMATIC EARLY EXERCISE

Example 1 – Automatic Early Exercise but no Coupon Amount: *The Reference Price in respect of each Asset for the first Autocall Observation Date is greater than or equal to its respective Autocall Level.*

In this Example, the Certificates will be exercised on such Autocall Observation Date, and the Automatic Early Exercise Amount payable per Certificate (of the Nominal Amount) on the Automatic Early Exercise Date immediately following such Autocall Observation Date will be an amount equal to the Autocall Event Amount for the first Autocall Observation Date, i.e., SEK 11,200. No Coupon Amount will be payable on the Coupon Payment Date falling on such Automatic Early Exercise Date.

Example 2 – no Automatic Early Exercise but Coupon Amount: *The Reference Price in respect of one Asset for the first Autocall Observation Date is less than its Autocall Level but greater than or equal to its Coupon Barrier Level 2, and the Reference Price in respect of each other Asset for such Autocall Observation Date is greater than or equal to its respective Autocall Level.*

In this Example, the Certificates will not be exercised on such Autocall Observation Date. A Coupon Amount of 5.00 per cent. of the Nominal Amount, i.e., SEK 500, will be payable per Certificate (of the Nominal Amount) on the Coupon Payment Date immediately following such Autocall Observation Date.

Example 3 – no Automatic Early Exercise and no Coupon Amount: *The Reference Price in respect of one Asset for the first Autocall Observation Date is less than its Coupon Barrier Level 2 and the Reference Price in respect of each other Asset for such Autocall Observation Date is greater than or equal to its respective Coupon Barrier Level 2.*

In this Example, the Certificates will not be exercised on such Autocall Observation Date and no Coupon Amount will be payable on the Coupon Payment Date immediately following such Autocall Observation Date.

SETTLEMENT AMOUNT

Example 4 – positive scenario but no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, and the Final Closing Price in respect of each Asset is 90 per cent. or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be an amount equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Trigger Percentage, i.e., SEK 16,000. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date.

Example 5 – neutral scenario plus Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price in respect of one Asset is 89 per cent. of its Asset Initial Price and the Final Closing Price in respect of each other Asset is 90 per cent. or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be 100 per cent. of the Nominal Amount, i.e., SEK 10,000. Additionally, a Coupon Amount of 5.00 per cent. of the Nominal Amount, i.e., SEK 500, will be payable per Certificate (of the Nominal Amount) on the Coupon Payment Date falling on the Maturity Date.

Example 6 – negative scenario and no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price in respect of one Asset is 59 per cent. of its Asset Initial Price and the Final Closing Price in respect of each other Asset is 60 per cent. or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be 59 per cent. of the Nominal Amount, i.e., SEK 5,900. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from any Coupon Amounts received prior to the Maturity Date).**

Example 7 – negative scenario and no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price in respect of one Asset is zero per cent. of its Asset Initial Price and the Final Closing Price in respect of each other Asset is 60 per cent. or more of its respective Asset Initial Price.*

In this Example, the Certificates will be exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be zero. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a total loss of the amount invested in the Certificates (apart from any Coupon Amounts received prior to the Maturity Date).**

Non-scheduled Early Repayment Amount

Unscheduled early redemption: The Securities may be redeemed prior to the scheduled maturity (i) at the Issuer's option (a) if the Issuer determines a change in applicable law has the effect that performance by the Issuer or its affiliates under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), (b) where applicable, if the Calculation Agent determines that certain additional disruption events or adjustment events as provided in the terms and conditions of the Securities have occurred in relation to the underlying assets or (ii) upon notice by a Holder declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

In such case, the Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging and funding arrangement.

The Non-scheduled Early Repayment Amount may be less than your initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.

If a Trigger Event has not occurred, the Settlement Amount payable in respect of each Security will be calculated in accordance with the formula below:

SECTION D – RISKS

| | | |
|-----|--|--|
| D.2 | Key risks that are specific to the Issuer | <p>The payment of any amount due on the Securities is subject to our credit risk. The Securities are our unsecured obligations. The Securities are not bank deposits and are not insured or guaranteed by the UK Financial Services Compensation Scheme or any other government or governmental or private agency, or deposit protection scheme in any jurisdiction. The value of and return on your securities will be subject to our credit risk and to changes in the market's view of our creditworthiness.</p> <p>References in Element B.12 above to the "prospects" and "financial or trading position" of the Issuer, are specifically to the Issuer's ability to meet its full payment obligations under the Securities in a timely manner. Material information about the Issuer's financial condition and prospects is included in GSI's annual and interim reports. You should be aware, however, that each of the key risks highlighted below could have a material adverse effect on the Issuer's businesses, operations, financial and trading position and prospects, which, in turn, could have a material adverse effect on the return investors receive on the Securities.</p> <p>The Issuer is subject to a number of key risks:</p> <ul style="list-style-type: none"> • GSI's businesses have been and may continue to be adversely affected by conditions in the global financial markets and economic conditions generally. • GSI's businesses and those of its clients are subject to extensive and pervasive regulation around the world. • GSI's businesses have been and may be adversely affected by declining asset values. This is particularly true for those businesses in which it has net "long" positions, receives fees based on the value of assets managed, or receives or posts collateral. • GSI's businesses have been and may be adversely affected by disruptions in the credit markets, including reduced access to credit and higher costs of obtaining credit. • GSI's market-making activities have been and may be affected by changes in the levels of market volatility. |
|-----|--|--|

| | | |
|--|--|--|
| | | <ul style="list-style-type: none"> • GSI's investment banking, client execution and investment management businesses have been adversely affected and may continue to be adversely affected by market uncertainty or lack of confidence among investors and CEOs due to general declines in economic activity and other unfavourable economic, geopolitical or market conditions. • GSI's investment management business may be affected by the poor investment performance of its investment products. • GSI may incur losses as a result of ineffective risk management processes and strategies. • GSI's liquidity, profitability and businesses may be adversely affected by an inability to access the debt capital markets or to sell assets or by a reduction in its credit ratings or by an increase in its credit spreads. • A failure to appropriately identify and address potential conflicts of interest could adversely affect GSI's businesses. • A failure in GSI's operational systems or infrastructure, or those of third parties, as well as human error, could impair GSI's liquidity, disrupt GSI's businesses, result in the disclosure of confidential information, damage GSI's reputation and cause losses. • A failure to protect GSI's computer systems, networks and information, and GSI's clients' information, against cyber attacks and similar threats could impair GSI's ability to conduct GSI's businesses, result in the disclosure, theft or destruction of confidential information, damage GSI's reputation and cause losses. • GSI's businesses, profitability and liquidity may be adversely affected by deterioration in the credit quality of, or defaults by, third parties who owe GSI money, securities or other assets or whose securities or obligations GSI holds. • Concentration of risk increases the potential for significant losses in GSI's market-making, underwriting, investing and lending activities. • The financial services industry is both highly competitive and interrelated. • GSI faces enhanced risks as new business initiatives lead it to transact with a broader array of clients and counterparties and exposes it to new asset classes and new markets. • Derivative transactions and delayed settlements may expose GSI to unexpected risk and potential losses. • GSI's businesses may be adversely affected if GSI is unable to hire and retain qualified employees. • GSI may be adversely affected by increased governmental and regulatory scrutiny or negative publicity. • Substantial legal liability or significant regulatory action against GSI could have material adverse financial effects or cause significant reputational harm to GSI, which in turn could seriously harm GSI's business prospects. • The growth of electronic trading and the introduction of new trading technology may adversely affect GSI's business and may increase competition. |
|--|--|--|

| | | |
|-----|--|--|
| | | <ul style="list-style-type: none"> • GSI's commodities activities, particularly its power generation interests and physical commodities activities, subject GSI to extensive regulation potential catastrophic events and environmental, reputational and other risks that may expose it to significant liabilities and costs. • In conducting its businesses around the world, GSI is subject to political, economic, legal, operational and other risks that are inherent in operating in many countries. • GSI may incur losses as a result of unforeseen or catastrophic events, including the emergence of a pandemic, terrorist attacks, extreme weather events or other natural disasters. |
| D.6 | Key risks that are specific to the Securities | <ul style="list-style-type: none"> • Your capital is at risk. Depending on the performance of the underlying asset(s), you may lose some or all of your investment. • You could also lose some or all of your investment in the Securities where: <ul style="list-style-type: none"> ◦ We (as Issuer) fail or are otherwise unable to meet our payment obligations; ◦ You do not hold your Securities to maturity and the secondary sale price you receive is less than the original purchase price; or ◦ Your Securities are redeemed early due to an unexpected event and the amount you receive is less than the original purchase price. • The estimated value of your Securities (as determined by reference to pricing models used by us) at the time the terms and conditions of your Securities are set on the trade date, will be less than the original issue price of your Securities. • Your Securities may not have an active trading market, and you may be unable to dispose of them. • You will be required to make your investment decision based on the indicative amounts or indicative range rather than the actual amounts, levels, percentages, prices, rates or values (as applicable), which will only be fixed or determined at the end of the offer period after their investment decision is made but will apply to the Securities once issued. • We give no assurance that application for listing and admission to trading will be granted (or, if granted, will be granted by the issue date) or that an active trading market in the Securities will develop. We may discontinue any such listing at any time. • The potential for the value of the Securities to increase is limited as the performance of the underlying asset(s) to which the Securities are linked is capped. • The "worst-of" feature means that you will be exposed to the performance of each underlying asset and, in particular, to the underlying asset which has the worst performance. <p>Risks associated with Securities linked to underlying asset(s):</p> <ul style="list-style-type: none"> • The value and return on the Securities depends on the performance of such underlying asset(s), which may be subject to unpredictable change over time. • Past performance of an underlying asset is not indicative of future |

Such amount may be less than your initial investment and you could lose some or all of your investment. • The performance of shares is dependent upon many unpredictable factors. • You may receive a lower return on the Securities than you would have received from investing in the shares directly because the price of the shares may not include the value of dividends. • The issuer of a share may take any actions in respect of a share without regard to your interests as Holders of the Securities, and any of these actions could negatively affect the value of and return on the Securities. • A small basket will generally be more vulnerable to changes in the value of the underlying assets and a change in composition of a basket may have an adverse effect on basket performance. • A high correlation of basket components may have a significant effect on amounts payable on the Securities and the negative performance of a single basket component may outweigh a positive performance of one or more other basket components and may have an impact on the return on the Securities. • Your Securities may be adjusted or redeemed prior to maturity due to a change in law. Any such adjustment may have a negative effect on the value of and return on your Securities; the amount you receive following an early redemption may be less than your initial investment and you could lose some or all of your investment. • The Issuer of your Securities may be substituted with another company. • We may amend the terms and conditions of your Securities in certain circumstances without your consent. |
| SECTION E – THE OFFER | | |
| E.2b | Reasons for the offer and use of proceeds | The net proceeds of the offer will be used in the general business of the Issuer. |
| E.3 | Terms and conditions of the offer | <p>An offer of the Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive in the Kingdom of Sweden ("Public Offer Jurisdiction") during the period from (and including) July 3, 2017 to (and including) September 1, 2017 ("Offer Period") by the Authorised Offeror.</p> <p>The Offer Price is 100 per cent. of the Aggregate Nominal Amount (the "Issue</p> |

| E.4 | Interests material to the issue/offer | Not applicable, so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the offer, including conflicting interests. |
| E.7 | Estimated expenses | The Issue Price of 100 per cent. of the Aggregate Nominal Amount includes a selling commission of up to 6.00 per cent. of the Aggregate Nominal Amount which has been paid by the Issuer. Other than such selling commission, there are no estimated expenses charged to investors. |

Belopp för Icke-planerad Förtida Inlösen

Icke-planerad förtida inlösen: Värdepapperen kan lösas in före den planerade förfallotiden (i) enligt Emittentens beslutsrätt (a) om Emittenten bedömer att

ändringar i tillämplig rätt påverkar Emittentens eller dess närståendes utföranden under Värdepapperen eller hedgningstransaktioner avseende Värdepapperen på ett sådant sätt att detta har blivit (eller om det föreligger betydande sannolikhet för att inom den närmaste framtiden, det kommer att bli) olagligt eller ogenomförbart (helt eller delvis), (b) om tillämpligt, om Beräkningsagenten anser att vissa ytterligare avbrotthändelser eller justeringshändelser enligt villkoren för Värdepapperen har inträffat med avseende på de underliggande tillgångarna eller (ii) efter mottagande av meddelande från en Innehavare som förklarar sådana Värdepapper omedelbart uppsagda till återbetalning på grund av inträffandet av en uppsägningsgrundande händelse som alltjämt fortgår.

Beloppet för Icke-planerad Förtida Inlösen som ska betalas på en sådan icke-planerad förtida inlösen ska i sådant fall, för varje Värdepapper, vara ett belopp motsvarande det rimliga marknadsvärdet av Värdepapperet med beaktande av samtliga relevanta omständigheter med avdrag för samtliga kostnader som åsamkas Emittenten eller något av dess närstående företag i samband med sådan förtida inlösen, innefattande också sådana som avser avslutande av ett underliggande och/eller relaterat hedgnings- eller finansieringsarrangemang.

Beloppet för Icke-planerad Förtida Inlösen kan vara lägre än er ursprungliga investering och ni kan därför förlora delar eller hela er investering vid en icke-planerad förtida inlösen.

$$BB \times \text{Aktiverande Procenttal}$$

$$BB \times \text{Inlösenprocenttal}$$

Om en Barriärhändelse har inträffat och en Aktiverande Händelse har inträffat, kommer Avvecklingsbeloppet som ska erläggas avseende varje Värdepapper att beräknas i enlighet med formeln nedan:

$$BB \times \frac{\text{Slutligt Referensvärde}}{\text{Initialt Referensvärde}}$$

AVSNITT D – RISKER

| D2 | Nyckelrisker som är specifika för Emittenten | <p>Betalningen av varje belopp som förfaller under Värdepapperen är utsatt för kreditrisken förknippad med oss. Värdepapperen är våra icke-säkerställda förpliktelser. Värdepapperen är inte banksättningar och är inte försäkrade eller garanterade av the UK Financial Services Compensation Scheme eller någon annan stat eller statligt eller privat organ eller någon insättningsgaranti i någon jurisdiktion. Värdet för och avkastningen från dina värdepapper kommer att vara utsatt för vår kreditrisk och för förändringar i marknadens syn på vår kreditvärdighet.</p> <p>Hänvisningarna i Punkt B.12 ovan till Emittentens "utsikter" och "finansiella position eller handelsposition", är specifika i förhållande till Emittentens möjlighet att möta dess fulla betalningsansvar avseende Värdepapperen i tid. Väsentlig information om Emittentens finansiella ställning och framtidsutsikter är inkluderat i GSI:s års- och delårsrapporter. Du bör dock vara medveten om att varje huvudsaklig risk som framgår nedan kan ha en väsentlig negativ påverkan på Emittentens rörelse, verksamhet, finansiella ställning och handelsställning samt framtidsutsikter vilket i sin tur kan ha en väsentlig negativ påverkan på den avkastning på Värdepapperen som investerare erhåller.</p> <p>Emittenten är föremål för flera huvudsakliga risker:</p> <ul style="list-style-type: none"> • GSI:s verksamheter har påverkats och kan fortsätta att påverkas negativt av förhållanden på den globala finansmarknaden och allmänt av ekonomiska förhållanden. • GSI:s verksamheter och dess kunders verksamheter är föremål för omfattande och genomgripande regleringar runt om i världen. • GSI:s verksamheter har påverkats och kan fortsätta att påverkas negativt av sjunkande värden på tillgångar. Detta gäller särskilt för verksamheter med långa positioner, som uppstår ersättning baserat på hanterade tillgångar eller som mottar eller ställer säkerheter. • GSI:s verksamheter har påverkats och kan fortsätta att påverkas negativt av störningar på kreditmarknaderna, inklusive försämrad tillgång till krediter och högre kostnader för erhållande av krediter. • GSI:s market-making-aktiviteter har påverkats och kan fortsätta att påverkas av förändrad volatilitet i marknaden. • GSI:s verksamheter avseende investment banking, kundtransaktioner och investeringsförvaltning har påverkats och kan fortsätta att påverkas av osäkerhet på marknaden eller bristande förtroende hos investerare och verkställande direktörer på grund av minskad marknadsaktivitet och andra oförmånliga förhållanden hänförliga till ekonomi, geopolitik eller marknad. • GSI:s investeringsförvaltning kan påverkas av dåliga investeringsresultat för dess investeringsprodukter. • GSI:s kan lida skada till följd av ineffektiva processer och strategier avseende riskhantering. |
