The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (ii) below, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer of the Notes may only do so:

This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the English Law

Notes set forth in the Base Prospectus dated 15 June 2010 (the "**Base Prospectus**") for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the "**Prospectus Directive**"). This document constitutes the Final Terms relating to the issue of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive. Full information on the Issuer, the Guarantor and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. Copies of the Base Prospectus are available from the offices of Morgan Stanley & Co. International plc at 25 Cabot Square, Canary Wharf, London, E14 4QA.

Information Concerning Investment Risk

Noteholders and prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risk and that they consider the suitability of the Notes as an investment in the light of their own circumstances and financial condition. The amount payable on redemption of the Notes is linked to the performance of the Underlying Indices. Given the highly specialised nature of these Notes, the Issuer, the Guarantor and the Dealer consider that they are only suitable for highly sophisticated investors who are able to determine for themselves the risk of an investment linked to the Underlying Indices, are willing to take risks and can absorb the partial or complete loss of their initial investment.

Consequently, if you are not an investor who falls within the description above you should not consider purchasing these Notes without taking detailed advice from a specialised professional adviser.

Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in these Notes.

Please see the Base Prospectus for a full detailed description of the Notes and in particular, please review the Risk Factors associated with these Notes. Investing in the Notes entails certain risks including, but not limited to, the following:

Adjustment and Discontinuation Risk: The sponsor of the Underlying Indices (as defined herein) can add, delete or substitute stocks constituting the Underlying Indices or make other methodological changes that could change the value of the Underlying Indices without regard to the interests of holders of the Notes. Any of these decisions/determinations may adversely affect the value of the Notes and may result in the investor receiving a return that is materially different from that he/she would have received if the event had not occurred.

Adjustments by the Determination Agent: The terms and conditions of the Notes will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Notes or any exchanges are affected by market disruption, adjustment events or circumstances affecting normal activities.

Credit Risk: The holder of the Notes will be exposed to the credit risk of the Issuer and the Guarantor.

Exit Risk: The principal amount is not protected. Investors run the risk that they may not receive their initially invested amount. The secondary market price of the Notes will depend on many factors, including the value and volatility of the Underlying Indices, interest rates, the dividend rate on the Underlying Indices, time remaining to maturity and the creditworthiness of the Issuer and the Guarantor. The secondary market price may be lower than the market value of the issued Securities as at the Issue Date to take into account amounts paid distributors and other intermediaries relating to the issue and sale of the Notes as well as amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, the holder may receive an amount in the secondary market which may be less than the then intrinsic market value of the Note and which may also be less than the amount the holder would have received had the holder held the Note through to maturity..

Hedging Risk: On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Notes by taking positions in the stocks that comprise the Underlying Indices, in option contracts on the Underlying Indices or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the

Underlying Indices as part of their general businesses. Any of these activities could potentially affect the value of the Underlying Indices including on the Determination Date, and accordingly, could significantly affect the payout to holders on the Notes.

Liquidity Risk: The Dealer will make a secondary market in the Notes on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. The liquidity of the Notes reflects the liquidity of the Underlying Indices and even whilst there may be a secondary market in the Notes it may not be liquid enough to facilitate a sale by the holder.

No Shareholder Rights: A holder of Notes will have no beneficial interest in or any voting rights and will not have the right to receive dividends or other distributions with respect to the stocks composing the Underlying Indices.

Potential Conflict of Interest: The Determination Agent (MSI plc) is an affiliate of the Issuer and the economic interests of the Determination Agent may be adverse to the interests of holders of the Notes. Determinations made by the Determination Agent, including in the event of a market disruption may affect the amount payable to holders pursuant to the terms of the Notes.

Underlying Sponsor Risk: The sponsor of the Underlying Indices are not affiliates of the Issuer or its affiliates and are not involved with this offering in any way. Consequently, the Issuer and the Determination Agent have no ability to control the actions of the sponsors of the Underlying Indices, including any rebalancing that could trigger an adjustment to the terms of the Notes by the Determination Agent.

Other Considerations: The original issue price of the Notes includes the agent's commissions paid with respect to the Notes and the cost of hedging the Issuer's obligations under the Notes. The cost of hedging includes the projected profit that the Issuer's subsidiaries may realize in consideration for assuming the risks inherent in managing the hedging transactions. The subsidiaries through which the Issuer hedges its obligations under the Notes expect to make a profit. Since hedging the Issuer's obligations entails risk and may be influenced by market forces beyond the control of the Issuer or its subsidiaries, such hedging may result in a profit that is more or less than initially projected, or could result in a loss.

Assuming no change in market conditions or any other relevant factors, the price, if any, at which MSI plc is willing to purchase Notes in secondary market transactions will likely be lower than the original issue price, since the original issue price includes, and secondary market prices are likely to exclude, commissions paid with respect to the Notes, as well as the projected profit included in the cost of hedging the Issuer's obligations under the Notes. In addition, any such prices may differ from values determined by pricing models used by MSI plc, as a result of dealer discounts, mark-ups or other transaction costs.

In purchasing any Notes, purchasers will be deemed to represent and undertake to the Issuer, MSI plc and their respective affiliates in accordance with the terms set out in Annex 2.
