

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations under the FSMA to implement Directive (EU) No 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) No 2017/1129 as it forms part of domestic law by virtue of EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended, the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK or may be unlawful under the UK PRIIPs Regulation

MIFID II product governance / Retail investors, professional investors and eligible counterparties – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials"), has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("COBS"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

General risks

Risk of volatility of the Notes:

Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor):

The Noteholders may suffer losses should NATIXIS (the Guarantor) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms. In case of resolution proceedings, the Noteholders could face non-redemption or redemption at an amount lower than the amount expected.

Risk of early redemption in the event of illegality, changes in taxation, force majeure:

In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the Noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset:

The amounts payable by the Issuer are linked to or make reference to the performance of the Underlying asset (the **Underlying**). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying. If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Risk relating to currency fluctuations and exchange controls:

Currency fluctuations and exchange controls can have a substantial impact on the value of the Notes. Consequently, it is possible that, following a disruption in the source of the price or a substantial fluctuation in exchange rates, there could be a decrease in the return on the Notes or the redemption amount after conversion into the investor's currency.

Risk of low or no returns:

The amounts of interest payable by the Issuer are linked to or make reference to changes in one Underlying. Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying. If there is an adverse change in the price, value or level of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, investors may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to a "benchmark":

The indices that are considered as "benchmarks" are governed by regulatory guidelines and reform proposals at national and international levels. These reforms could have effects on the continuation of some benchmarks, which may not be maintained. Such changes could have a material adverse effect on the value and the interest amounts and/or redemption amounts due in respect of Notes whose interest amounts and/or redemption amounts are linked to or make reference to that particular benchmark.

Risks relating to the occurrence of an Administrator/Benchmark Event:

There is a risk that, upon the determination by the Calculation Agent, an event with respect to the Underlying as a benchmark or the administrator of such benchmark occurs with the effect that certain fallbacks provisions shall apply (an **Administrator/Benchmark Event**).

Any adjustment decided by the Calculation Agent further to the occurrence of an Administrator/Benchmark Event may not be effective in reducing or eliminating the loss of investors resulting from the replacement of the Underlying and could affect the performance of the Notes. Investors should also note that no consent from Noteholders shall be required before the application of any adjustment.

If, consequently to the occurrence of an Administrator/Benchmark Event, the Notes are early redeemed at their fair market value, the interest amounts and/or redemption amounts due in respect of the Notes may be less than the amount initially set out in the Final Terms.

The above described elements may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value or liquidity of the Notes.

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to an Underlying index:

The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's value(s). Certain events may affect the administrator of the Underlying or the Underlying, such as modification of the Underlying formula, cancellation of the Underlying or failure to calculate and announce the Underlying.

In these cases, the Calculation Agent may, at its discretion, either (i) adjust certain terms of the Notes, (ii) replace the Underlying, or (iii) require the Issuer to redeem the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes or the replacement of the Underlying may affect Natixis' ability to perform its obligations of the Notes and/ or may have a negative impact on the value and the interest amounts and/or

redemption amounts or liquidity of the Notes. Moreover, the fair market value calculated in case of early redemption may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.
